## DUAL PORT POWER PACK

MP1860A

TekCharge MP1860A is a dual port power pack with two outputs to simultaneously charge and power your iPad™, iPhone®, iPod® nano or iPod® touch, and a second small portable device. Its intelligent design enables TekCharge MP1860A to identify and provide exactly the right output power for the connected device, from less than 100mA to a whopping 2.1A.

By taking advantage of the TekCharge MP1860A rechargeable lithium ion battery, you can enjoy hours of extended play time on your battery-hungry devices, like iPad, iPhone, iPod, mobile phones, smartphones, portable media players, pocket video cameras, portable routers, e-readers, GPS, MP3 players, and more. As an added bonus, TekCharge MP1860A includes a flashlight so you have emergency light at your fingertips.

TekCharge MP1860A connects to your device in three ways: you can connect to your iPad, iPhone, iPod nano or iPod touch using the included Apple Dock Connector to USB cable, or you can use your own USB device cable or an adapter tip to connect to your device. Your TekCharge MP1860A includes an Apple Dock Connector to USB cable for connection to your iPad, iPhone, or iPod, and Mini USB and Micro USB adapter tips for connection to current models of BlackBerry®, HTC, LG, Motorola, Nokia, Samsung, and Sony Ericsson mobile phones. These USB adapter tips also can be used to charge your Kindle2, Nook, MP3 players, PDAs, portable media players and other 5V devices that use a Micro or Mini USB cable to charge. Additional adapter tips are available from Tekkeon for a nominal fee.

## Charge Two Devices at Once!

- For iPad/iPhone/iPod, mobile phones, and more
- Connects to any USB device cable
- Reusable emergency power

Blackberry • HTC • iPad/iPhone/iPod • LG • Motorola • Nokia • Samsung • Sony Ericsson
