

myPower™ ALL *plus*

EXTERNAL LAPTOP BATTERY

MP3450 R3

Double your battery life!

myPower™ ALL Plus MP3450 R3 more than doubles the life of your laptop battery, and can simultaneously charge other small portable devices. This lightweight battery charges and powers laptops and virtually any portable device—anywhere, anytime—making it a versatile solution for the power needs of mobile products, on the road and at home.

Most portable devices are often in need of recharging after just 2 to 4 hours of use. With myPower ALL Plus, you can enjoy hours of extended time on your laptop, tablet, or portable DVD player, or small 5V portable devices like iPad, iPhone 4/iPhone 4S, smart/mobile phones, pocket video cameras, MP3 players, e-Readers, and other portable consumer electronic products.

Selecting the right voltage for your portable device is done quickly and easily. Because myPower ALL Plus automatically locks the selected voltage, and then resets the voltage to the lowest setting after a new device is connected, you will never overcharge your portable device.

myPower ALL Plus comes with eight adapter tips for connection to your laptops, portable DVD player, tablet, or other portable devices, plus a Mini USB tip for connection to most small 5V portable devices. It's important to note that myPower ALL connects to your 5V device in two ways: you can use the included mini USB adapter to connect to your device or purchase a compatible adapter from the Tekkeon Store for a nominal fee; or you can use your USB device cable, bypassing the need for an extra adapter.

myPower ALL Plus is modular, so you can add the optional extended battery (MP3450-10 R3) to double the capacity, or extra myPower ALL batteries to significantly increase the battery capacity. The optional extended batteries and adapter tips are available at the Tekkeon Store at www.tekkeon.com.

Power your laptop and more...

- Laptops
- Portable DVD players
- Smart/mobile phones
- iPhone/iPod/iPad
- Portable music and media players

- User guide

POWER ON THE GO

DEVICE	MP3450 R3	MP3450 R3 + MP3450-10 R3*
Laptop	4 hours	8 hours
Portable DVD player	7 hours	14 hours
Smart phone	50 hours	100 hours
Mobile phone	70 hours	140 hours
iPad	23 hours	46 hours
iPhone 4/4S	50 hours	100 hours
iPod touch	640 (audio) 112 (video)	1280 (audio) 224 (video)
Portable media player	14 (video) 34 (audio)	28 (video) 68 (audio)
MP3 player	48 hours	92 hours
Pocket video camera	23 hours	46 hours
e-Reader	117 hours	234 hours
GPS	23 hours	46 hours
Mobile hotspot	16 hours	32 hours

* With MP3450 R3 and MP3450-10 R3 combo.

Hours shown are approximate, and will vary depending on connected device. MP3450 R3 will power and charge virtually all laptops for which an adapter is available, and that draw up to 64W output power from the device power adapter.

Each battery contains 4 grams of lithium, which is less than the FAA maximum of 8 grams for carry-on luggage.

Optional extended battery (MP3450-10 R3) available to double the capacity, or multiple myPower ALL Plus batteries can be connected to significantly extend the capacity.
