

# myPower™ ALL *plus*

## EXTERNAL INSTRUMENT BATTERY

### MP3450i R3

myPower™ ALL Plus MP3450i R3 is a high-temperature, high-capacity lithium ion battery for use with portable instruments and equipment as portable power, or as an Uninterruptable Power Supply (UPS) for battery backup. This universal battery provides instant power for instruments and equipment that require between 5V and 19V, and the voltage is fixed for the connected equipment, or can be quickly changed to meet the power needs of a wide range of devices. And myPower ALL Plus can simultaneously charge other small portable devices, like smart/mobile phones and portable music players.

A versatile power solution that meets the needs of power-hungry portable devices, myPower ALL Plus MP3450i R3 will significantly extend the life of a range of instruments or equipment batteries—anywhere, anytime. As a UPS, the battery will provide the back-up power you need to avoid any equipment down time.

myPower ALL Plus is modular, so you can add an extended battery to this lightweight rechargeable battery to double the life of the battery between charges, or connect multiple myPower ALL Plus batteries to significantly increase the battery life.

To ensure compatibility with your equipment or instrument, myPower ALL Plus comes with five adapter tips that work with the most-widely used DC jacks. Additional adapter tips, as well as the extended batteries, are available at the Tekkeon Store at [www.tekkeon.com](http://www.tekkeon.com). As an added value, the USB port enables you to connect to most small 5V portable devices using your USB device cable.

### Portable Power

- 16 preset voltages
- Doubles as UPS for battery back-up
- Charges two devices at once

## SPECIFICATIONS

Weight: 16.54 oz  
 Dimensions: 3.32" (W) x 6.85" (L) x .89" (D)  
 Battery Type: Rechargeable lithium ion  
 Lithium Content\*: 4.8 grams (MP3450i R3)  
 4 grams (MP3450-10 R3)  
 Charging Time: 4 hours  
 Voltage Selection: 5V to 19V  
 (16 preset voltages for main output)  
 5V for USB port  
 Output Power: 58Wh  
 Color: Black

\* Meets FAA lithium battery requirements for carry-on luggage.

## BOX INCLUDES

- myPower ALL Plus universal rechargeable battery
- Adapter kit with carrying pouch (includes 5 adapter tips)
- AC/DC power adapter
- Output cord
- Voltage selection card
- User guide

## POWER ON THE GO

DEVICE	EXTRA POWER	WITH EXTRA BATTERY*
Laptops	4 hours	8 hours
3G routers	8 hours	16 hours
Portable DVD players	7 hours	14 hours
Digital camcorders	14 hours	28 hours
Portable media players	14 hrs of video 26 hrs of audio	28 hrs of video 52 hrs of audio
iPod touch	640 audio 112 video	1280 audio 224 video
MP3 players	48 hours	96 hours
iPad	23 hours	46 hours
Smart phone	50 hours	100 hours
Mobile phone	70 hours	140 hours

\* With MP3450i R3 and MP3450-10 R3 combo.

Hours shown are approximate, and will vary depending on connected device. Extra run time for 17" laptops will be lower.

MP3450i R3 will power or charge virtually all laptops for which an adapter tip is available, and that draw up to 90W output power from the device power adapter. Each battery contains 4 grams of lithium, which is less than the FAA maximum of 8 grams for carry-on luggage.

Optional extended battery (MP3450-10) available to double the capacity, or multiple myPower ALL Plus batteries can be connected to significantly extend the capacity.
