

Leather Cases for iPhone

Look stylish and protect your iPhone without giving up easy access to all your iPhone features. Made of premium genuine leather, Tekkeon leather cases for iPhone provide easy access to all the iPhone features, even the camera on the rear.

Each Tekkeon iPhone case comes with unique features that suit the case style—choose from a leather sleeve with invisible screen protector and bi-directional swivel clip, a wallet style with removable strap and business/credit card pocket, or a flip case with removable clip and business/credit card pocket. Both wallet and flip style are designed with a non-magnetic closure, which will not interfere with the iPhone operation. And the cases fit snugly, so there's no need to remove your iPhone to talk, message or check email.
