**External Laptop Battery Simultaneously Powers and Charges  
Laptop and Personal Electronic Device**

**Universal Battery Compatible with Multiple Devices and Brands**

*Tustin, CA—July 9, 2007—*Tekkeon announces myPower™ ALL Plus MP3450, an external rechargeable laptop battery that doubles the life of laptop batteries and can simultaneously charge other small portable devices through an on-board USB port. myPower ALL Plus is modular, so a second extended battery can be added to provide even more mobile power.

myPower ALL Plus *powers* and *charges* most laptop computers and virtually any mobile device on the go. In addition to powering a laptop for up to four extra hours, myPower ALL Plus powers and charges most portable electronics like portable DVD players, digital cameras and camcorders, portable media centers, portable MP3 and CD players, PDAs, and mobile phones.

“Tekkeon’s new external laptop battery is a must-have alternative for expensive notebook batteries that are dedicated to a single device,” says Jerry Yang, president of Tekkeon, Inc. “Before needing to be recharged, our new lightweight battery can power a laptop up to four hours, provide up to six hours of extra play time on a portable DVD player, or up to 12 hours of recording time on a digital camcorder — making it a truly universal mobile power solution.”

myPower ALL Plus connects to the power jack on the portable device. Selecting the right voltage for a portable device is done quickly and easily using the voltage selector. Automatic reset upon adapter change provides added safety to protect the connected device.

To ensure compatibility with a majority of popular personal electronic devices, Tekkeon’s latest battery product comes with nine adapter tips, including a Mini USB tip, for connection to popular laptops and

most small portable devices. Tekkeon provides a list of compatible devices on its web site at [www.tekkeon.com](http://www.tekkeon.com). For devices that require adapters not included in the package, Tekkeon provides additional adapters for a nominal fee.

Tekkeon's MP3450 will power virtually all laptops for which an adapter is available, and will charge most laptops that draw up to 64W output power from the device power adapter. myPower ALL Plus significantly increases the usage time of laptops and other devices to approximately:

Mobile Device	MP3450 (50Wh)
Laptops	Up to 4 hours*
Portable DVD players	6 hours
Digital cameras	4800 photos
Camcorders	12 hours
Portable media centers	12 hours of video, 30 hours of audio
MP3 players	42 hours
Portable CD players	96 hours
PDAs	14 hours
Mobile phones	60 hours of talk time

\* Extra run time for 17" laptops will be lower.

myPower ALL Plus is lightweight, weighing just 15.3 ounces, so it fits easily into a backpack, fanny-pack or briefcase. The myPower ALL Plus package includes:

- myPower ALL Plus rechargeable lithium polymer universal battery
- Eight DC adapter tips with carrying pouch
- Mini USB tip
- Retractable USB cable
- Output cord
- Power adapter (100-240VAC input, 19VDC output)
- Soft cover
- Device-at-a-Glance card
- User guide
